

Feature Focus: Analytics

Full oversight and transparency of your Exchanges, ensuring efficiency

Key Benefits

Comprehensive Dashboards

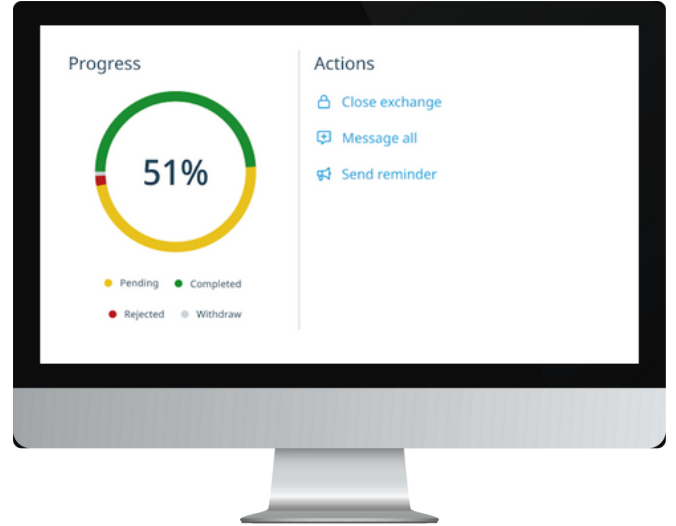

Detailed dashboards allow for complete oversight of Exchanges. Gather information seamlessly and rapidly.

Full Cycle Agency Management

Centralised Exchanges management allows for full transparency. View response rate effortlessly with a comprehensive break down of engagement.

Set Reminders, Automate Follow Ups and Track Progress Efficiently

Real-time data informs decision making, allowing you to remind recipients of outstanding actions.

Faster, Smarter, Safer

How It Works

Step One

Create a REG Exchange

Step Three

Track progress efficiently via your comprehensive dashboard

Step Five

Remind recipients of outstanding actions based on real-time data

Step Two

Send Exchange to one or thousands of recipients

Step Four

View response rate seamlessly and automate follow ups

Step Six

Keep a continuous conversation thread with your partners via Exchange's instant messaging

Informed Decisions

Inform decision making with real-time analytics, allowing you to react fast.

Instant Messaging

Built in messaging facility allows for a continuous conversation thread with partners.

Automated Management

Guaranteed response rate efficiency with automated alerts, follow ups and reminders.

Power and Protect

The suite of features in REG Exchanges put you in control of counterparty risks and relationships. Faster communication, smarter oversight and safer interaction empowers you to build business.
