

Feature Focus:

# Chains

Automated end-to-end oversight across your full supply chain

## Key Benefits

### Collect Data from Complex Supply Chains

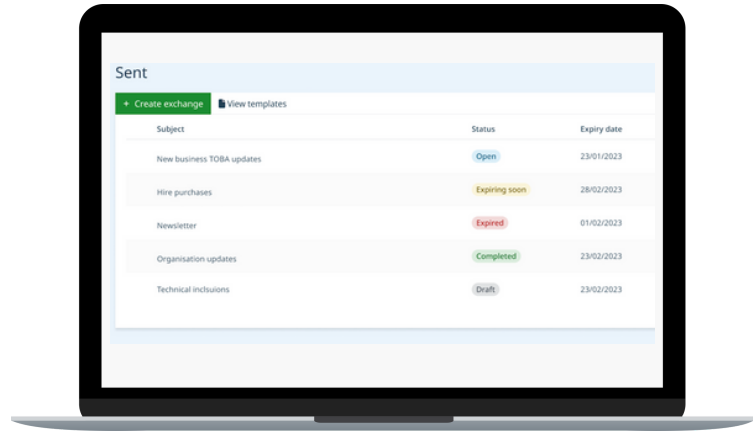

Digitise your end-to-end oversight to meet commercial, regulatory and ESR duties.

### Counterparty Transparency

Look through to your counterparties' chains and obtain complete visibility of all parties in your supply/distribution chain.

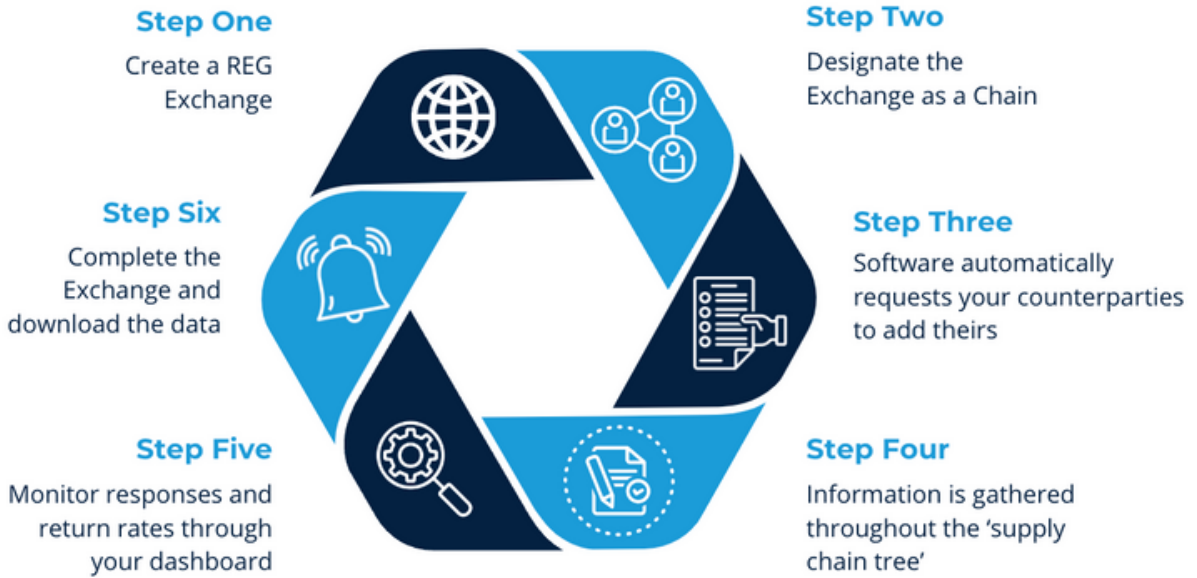

### Automate Supply Chain Management

Configure chains to carry out routine tasks whilst keeping on top of changes to counterparty relationships.

## Faster, Smarter, Safer

### How It Works

### End-To-End Oversight

Obtain complete oversight of your full supply chain, enhancing transparency.

### Unlimited Use Cases

From ESR to Consumer Duty, Vendor DD, application forms, questionnaires and contracts.

### Risk Mitigation

Mitigate risks through conducting thorough regulatory assessments.

### Power and Protect

The suite of features in REG Exchanges put you in control of counterparty risks and relationships. Faster communication, smarter oversight and safer interaction empowers you to build business.
