

**REG**  
NETWORK

## Feature Focus:

# RISK 365

Continuous, Customisable Risk Visibility:  
Clarity and Control, 365 Days a Year

## Key Benefits

### Manage Risk Across Your Network

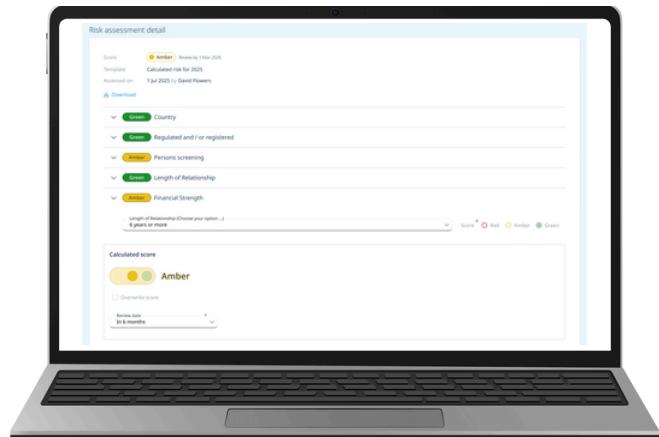

Manage and track risk in a single framework across the entire Network, ensuring consistency and control at every level.

### Configure Your Unique Risk Appetite

Define and customise risk appetites, criteria, and thresholds across your business, so governance is aligned to regulatory obligations across geographies or industries.

### Automated Risk Insights

Streamline reporting by automating the combination of REG Intelligence data with unique business insight, reducing time spent on analysis and increasing autonomy.

## Faster, Smarter, Safer

### How It Works

### Informed Decisions

Standardise decisions to enable proactive, repeatable best practice that strengthens relationships.

### Governance & Benchmarking

Track historical risk decisions over time to support audits, benchmarking, and stronger governance outcomes.

### Shared Intelligence

One connected view of risk, shared across teams for smarter collaboration.

### Power and Protect

The suite of features in the REG Network put you in control of counterparty risks and relationships. Faster communication, smarter oversight and safer interaction empowers you to enhance trade.
